AQUA PROTECT INSTRUCTIONS

Please keep this information for future reference.

1. Check that the pouch is water tight before each use by sealing and submerging in water.
2. Check the pouch, clips and opening for any damage before and after use.
3. Sudden changes in temperature can generate humidity inside the pouch. Simply open the pouch in a dry environment and let the air out.
4. If the pouch becomes dirty during use, wash with clean water and allow the pouch to dry completely before storage.
5. Do not use in water over 45°C.
6. Store in a cool dry place and never leave the pouch exposed under direct sunlight for long periods of time.
